Subject index to Volume 49

Acromegaly

- cardiovascular effects of GH/IGF-1 101
- endothelial dysfunction in (Commentary) 711
- haemodynamics in 725, (Commentary) 711
- intra-operative GH monitoring 45
- outcome of surgery 651
- outpatient assessment of GH after therapy 645

ACTH

- deficiency, and hyponatraemia 785
- ectopic secretion (Case report) 541, (Commentary) 419
- use of low dose test (Letter) 135

Addison's disease

- association with autoimmune disorders 779
- CTLA-4 gene polymorphism and 609

Adolescents

- anomalous pituitary adenomas (Letter) 547
- catecholamines in PCO 221
- differentiated thyroid cancer and 619
- IGF-I and IGFBP-3 in Crohn's disease 483

Adrenal failure

- associated with autoimmune disorders 779

Adrenal hyperplasia, congenital

- 21-hydroxylase deficiency and (Case report) 815
- (Review) 411

Adrenal incidentalomas

- dexamethasone suppression test and 165, (Commentary) 157
- glucose tolerance and 53

Adrenocortical hyperplasia

- bilateral macronodular (Case report) 403

Adrenoleukodystrophy

- X-linked, and DHEAS (Letter) 689

β_3 -Adrenoreceptor gene

- polymorphism, and leptin in diabetes 677

Ageing

- Cushing's disease and 311
- IGF-I response to GH 757

Agranulocytosis

- screening for (Letter) 271

Aldosterone

- production in CAH (Case report) 815

Aldosteronism, primary

- screening for 713, (Commentary) 709

Anabolic steroid abuse

- GH effects with 459

Antibodies

- thyroid-stimulating, detection of (Rapid communication) 577

Aquaporin-2 deficiency

- nephrogenic diabetes insipidus and 39

Athletes

- anabolic steroid/GH abuse 459

Atrial natriuretic factor

- effects of CRH in Cushing's disease 77

AVP see Vasopressin

Biochemical markers

- for clinically non-functioning pituitary tumours 185, (Commentary) 163

Body composition

- in children with renal failure 663
- effect of DHEA on 421
- effect on hexarelin-induced GH release 657

Body fat

- distribution and 11 β -HSD activity 13, (Commentary) 9
- relationship of leptin and thyroid hormones 583, 589 (Commentary) 569

Bone

- metabolism in children with renal failure 663

Bone mineral density (BMD)

- in children with renal failure 663
- cytotoxic-induced ovarian failure and 397
- depot medroxyprogesterone acetate and 615
- effects of oestrogen in transsexuals 811
- role of oestrogen and testosterone in men 803

Brain tumours

- GH and IGF axis in children 637

Breast cancer

- carcinoid metastases (Case report) 683

Burns

- stress response in children 335

Calcitonin

- deficiency in autoimmune thyroiditis 69

Carbohydrate metabolism

- effect of GH therapy in children 125

Carcinoid tumours

- ectopic Cushing's syndrome and octreotide (Case report) 541, (Commentary) 419
- presenting as breast cancer (Case report) 683

Cardiovascular features

- abnormalities in young acromegalics 101
- mortality, hypopituitarism and (Letter) 271
- risk factors in Turner syndrome 447

Catecholamines

- in polycystic ovary syndrome 221
